**IMPACT OF COVID-19 ON  
QUALITY ASSURANCE OF  
HIGHER EDUCATION IN KERALA:  
CHALLENGES AND OPPORTUNITIES**

## RELEVANCE OF THE TOPIC

We are passing through a very tough and unpredictable phase in our life. COVID 19 has changed substantially, the way we used to live. Many newly emerged burning issues stare at us. In "live with COVID" era, many alternatives ought to be developed to substitute the old style of functioning of man-machine and knowledge delivery. Field of education cannot insulate itself from such alternatives and drastic changes are taking place in the educational field at a rapid pace.

The COVID-19 pandemic is set to change the world sooner than we expected. The way our governments, institutions, organizations, and people think and function, has radically changed. Among many economic sectors, the higher education sector is undergoing a tectonic shift now. What several futurists and education technologists have been forecasting for long, is now happening. At least for the last two decades, education technology enthusiasts have been predicting that technology will become the biggest intermediary of teaching-learning processes. In the wake of Covid-19 pandemic, millions of students across the globe have been driven out of their university spaces, and teachers are confined to their homes. Higher education stands disaggregated, and faculty and students are grappling with the sudden new norm of completely tech-mediated teaching and learning processes.

Without proper evaluation, any educational system would gradually be degraded. Quality of the education determines the strength, versatility, future and independence of a nation and any compromise on this would be fatal and self-immolating. Therefore newer methods for evaluating the students and for conducting examinations have to be developed. We must tread cautiously but with strong steps. New challenges and new solutions only will make our educational system effective and more competitive.

## OBJECTIVES

- Highlight the impact of Covid-19 on higher education sector.
- Bring out various emerging approaches to higher education
- Enlist post Covid-19 trends of HEIs
- Deliberate on programmes to be implemented in the HEIs in post Covid era
- Suggest sustainable educational activities of HEIs facing the challenges created by Covid-19.
- Provide information about resources and events related to the enhancement of teaching and learning during the time of the pandemic.
- Explore the use of technology in effective teaching learning process.

## SUB-THEMES

- ◆ Assessment and Accreditation in Revised Accreditation Framework
- ◆ Challenges of Higher Education in Covid Times
- ◆ Impact of Covid-19 Pandemic on Higher Education
- ◆ New Opportunities Offered by Technology for Effective Quality Assurance
- ◆ Prospects of Higher Education in Post Covid Times

## ABOUT THE COLLEGE

- A pioneer higher education institution of the High ranges of Kerala
- Government aided College, affiliated to Mahatma Gandhi University, Kottayam
